ELTON B.V.
DATA SHEET
ELLEN AIB 3N 25 ZK FIRE

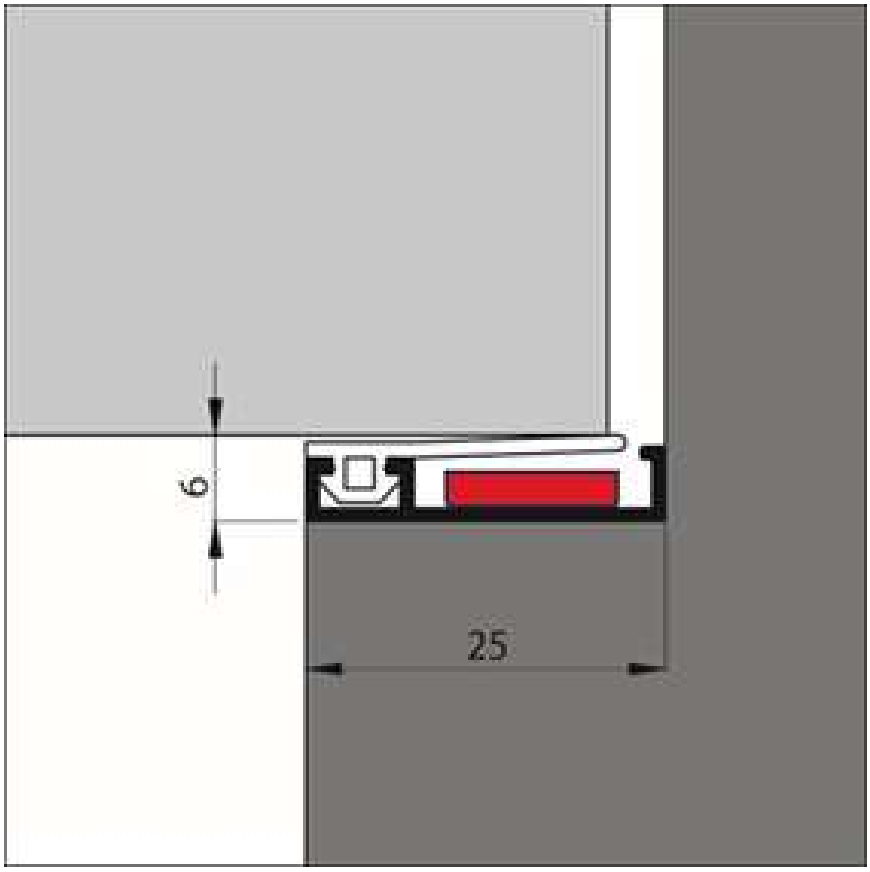

PRODUCT SPECIFICATIONS

Product group	Rebate perimeter seals
Intended use	Sealing of the gap between door and door frame. In normal circumstances the product prevents draught. In case of a fire the graphite swells up when it reaches 200° C and prevents air coming in and fueling the fire, thus compartmenting of the fire source and creating a safe evacuation route.
Product attributes	- Prevent draught - Compartmenting fire and creating an escape route for evacuation
Material	- Aluminium holder profile - Flame-retardant TPE seal - Graphite strip - Self-adhesive tape for fixation
Product dimensions / groove size	Width 25 mm x height 6-10 mm
Gap	Min. 6 mm – max. 10 mm
Standard length	300 cm
Mounting	In the rebate of door frame
